

Advertise with Coastal Currents

“Participation in the arts should not be dependent on where people live or their social, educational or financial circumstances.”
Arts Council England

EXTENDED AUDIENCE REACH - 1,863,412*
NUMBER OF ARTISTS INVOLVED (since 2012) - 3,350

Coastal Currents Arts Festival is now in its twenty fourth year as a leading multi-arts festival celebrating the culture of our region. With our Open Studios programme involving more than 300 local artists every year, we raise public funding to create high quality cultural experiences and interventions which encourage permanent environmental change.

Why advertise

- * Three months of advertising over the high season from July through September
- * Beautifully printed, FREE A5 glossy publication with a minimum print run of 15,000
- * Showcases the area's culture, art and creative industries from Hastings, St Leonards, Rother & Eastbourne
- * Contribute towards the area's annual arts festival and help associate your brand with our audiences
- * Get exposure to culturally minded, high spending visitors and residents.
- * Your Advertisement will be seen from Folkestone to Brighton, to London; a minimum 2 hour drive radius of Hastings with delivery to Tourist Information Centres, Guest houses, Visitor Attractions, Galleries, Salons, Shops, Cafes plus lots of venues in Kent, Sussex and London.
- * Great visibility over a long period as the brochure is restocked regularly for the months leading up to the Festival and throughout the Festival itself.
- * Coastal Currents Website gets over 100,000 hits over the summer and early autumn as people check for events and updates. The website stays up all year and continues to receive hits.
- * There is a special emphasis in the brochure and website to increase visitor footfall to food shops, cafes and restaurants, creative industries, specialist shops, style shops, hair and beauty.
- * Cost Per Thousand (CPM) Rate = 0.003 It is a generally accepted ratio that at least 4 people will read each piece of print so a print run of 15,000 brochures will reach a minimum of 60,000+ potential customers. This means a £225 spend has a per customer cost of $225/60,000 = 0.003p$. This can be a cheaper and more targeted way of advertising than printing leaflets or advertising in daily newspapers.

Costs and Specs

Support us

Moving forwards, we will continue to expose and involve the greatest amount of people possible in a collective celebration of culture on the south coast.

Our vision is to support the whole of the creative community in 1066 and the surrounding area, bringing opportunities, commissions, footfall and tourism whilst positioning this coastal area, rich in creativity, as an international destination for the arts.

Support your local cultural economy by supporting Coastal Currents.

We are independent and wholly survive on sponsorship, advertising and hunting for funding opportunities.

We need you!
